(Official WeatherFone Logo)

TIME and Temperature

# 383-2141

**The Marion WeatherFone** Since the 1960s, the citizens of Marion and surrounding areas have enjoyed the convenience of being able to just dial up and get the time, temperature and local weather forecast. It was an important asset used by almost everyone.

Recently the service was lost and the phone number, 383-2141, which was so well memorized by the good folks of Marion, no longer worked.

In August, 2010 the owners of Marion Landscape Service realized how important it was to **keep the tradition alive** and they purchased the equipment. After making a couple of small upgrades, the service continues and the tradition lives on and it's popularity has returned,

The Marion WeatherFone is a community service of Marion Landscape Service and is NOT intended for profit, but to continue this well used tradition for the people of Marion and the surrounding areas and to provide great advertising opportunities of the city's local businesses.

Please take advantage of this Free community service, You'll feel right at home!
